Dear Mr. Stacy,

I want to support the Connecticut DEP in their new draft for stream flow regulation with the exception of the class 4. I believe we should not write off any stream. If there is a class 4 it should have some plan to improve it over time.

I am on the Madison Inland Wetland Agency and have been on a wetland board for the last 26 years.

I live near the Hammonasset River and have seen the flow almost stop.

Sincerely,
